MBI MINI LINE

MCP300-MCP480

Mini Pulveriser

The MCP300 and MCP480 fixed pulveriser is the ideal attachment for secondary demolition or rather for the work of reduction and fragmentation of the demolished material making disposal and recycling easier by separating the reinforced iron from the reinforced concrete.

Great power
The MCP mini pulveriser are of small dimension but they are very powerful.

Excellent precision
The profile of the mouth is designed to optimize secondary demolition and ensure accuracy in the separation of materials.

High productivity
The design of the mouth and the shape of the body allows high productivity.

We are constantly improving our products and therefore we reserve the right to change the design and technical specifications without prior notice.

TECHNICAL SPECIFICATIONS			
MODEL		MCP300*	MCP480*
Excavator Weight	t	1,5-4	4-10
Tool Weight**	kg	150	490
Opening A	mm	300	480
Height max. B	mm	770	1225
Width max. C	mm	220	350
Hydraulic working pressure	bar	200-250	220-280
Oil flow	l/min	30-60	80-100

RIF. 97896/E

* IT version not available

**Tool weight does include Mantovanibenne top bracket.
